Hi all,

FYI: I sit on the NTOC HF committee headed by AIEO, if you have any questions please stop by.

Thank you

 Subject: Update - HF Coordination Call

Just a quick update - I sat in on the call today and provided an update on the DFHF Guidance. I covered our work on tribal consultation and provided an overview of comments we have received to date - also outlined the schedule for finalizing the guidance.

Noteworthy Notes from the Meeting:

Andy Burn will be sitting in on all subsequent HF coordination calls. Andy represents AIEO (replacing

David Guest, Guess??) Andy said that the National Tribal Operations Committee has formed a HF subcommittee to inform the NTOC on HF issues that may impact tribes. (Sherri and Kyle may already be aware of this.)

ORD is increasing stakeholder outreach in anticipation of 2014 report. They will hold a series of 5 "experts" workshops over the coming months and plan to cover each of the 5 HF lifecycles. They expect about 15 experts will be selected to participate in each workshop (1/2 to full day). Workshops are expected to begin in November 2012 and wrap up in the Spring of 2013.

Region 3 talked about 2 contamination investigations being conducted by PA DEP. Both are related to gas migration and impact private water supplies - one is believed to be migrating to surface water. The companies involved are supplying water to affected homeowners while the PA DEP investigation proceeds. PA DEP reports that they have the investigation under control.

Region 8 conducted its 5th round of samples from deep wells in Pavilion. Analytical results are expected to be published in a report and ready for the Pavilion Review Panel in September.

GAO Regulations Report - Comments are due to GAO on August 20th. No real issues identified - OGC is working with the Air Office on minor clarification issues.

Oil and Gas NSPS/NESHAP - Final Rule to be published this week (Aug 16). May see petitions for reconsideration after publishing FR notice.
